IT SUPPORT · SYSTEMS · AUTOMATION

Christian David Villar Colodro

IT Operations & Support Specialist

L1/L2 Support · Systems & Infrastructure

IT experience. A systems view. A builder's mindset.

IT Operations and Support professional with 15+ years of experience supporting 2,000+ users across a multi-site enterprise environment. Experienced in Windows administration, Active Directory, Microsoft 365, incident management, hardware and network troubleshooting, and IT service delivery. Proven ability to handle high incident volumes, coordinate infrastructure deployments, and contribute to internal technology projects. Complemented by Systems Analyst qualifications and Full Stack development training, with knowledge of Python, SQL, JavaScript, and REST APIs.

15+
years in IT support

2,000+
users across multiple campuses

150–200
incidents resolved per week

PROFESSIONAL EXPERIENCE

Senior IT Support Technician

Pontifical Catholic University of Argentina · September 2008 – October 2023 · Multi-campus

- Delivered first- and second-line IT support to 2,000+ users across multiple university campuses.
- Resolved 150–200 technical incidents per week through a corporate ticketing system, prioritizing work according to service needs.
- Managed Active Directory, Microsoft 365, Windows workstations, user access and network printers.
- Diagnosed and resolved hardware, software and network issues; supported workstation setup, deployment and ongoing maintenance.
- Supported computer laboratories, institutional events, video conferencing and streaming services, helping maintain continuity for users.

SELECTED ACHIEVEMENTS

- Led deployment of a distributed printing solution across 7 university campuses.
- Developed an internal inventory management application using Java and PHP.

Customer Service

Dumpling House, Málaga · December 2025 – July 2026

- Worked directly with customers in a fast-paced service environment, strengthening communication, prioritization and customer-focused problem-solving skills.
