IT SUPPORT · SYSTEMS · AUTOMATION

Christian David Villar Colodro

Senior IT Support Specialist | Help Desk N1/N2

Windows · Active Directory · Systems & Infrastructure

IT experience. A systems view. A builder's mindset.

Málaga, Spain +34 601 75 54 38 christiandvillar@gmail.com LinkedIn

IT Support professional with 15+ years of experience providing Level 1 and Level 2 technical support, systems administration and troubleshooting in corporate environments. Experienced in supporting more than 2,000 users and handling 150–200 incidents per week. Strong background in Windows, Active Directory, Group Policy, hardware and software troubleshooting and remote assistance. Full Stack trained, with practical experience building web applications, REST APIs and databases. Focused on problem-solving, service quality and bridging technical support, software development and IT operations.

15+	2,000+	150–200
years in IT support	users across multiple campuses	incidents resolved per week

PROFESSIONAL EXPERIENCE

Senior IT Support Technician

Pontifical Catholic University of Argentina · September 2008 – October 2023 · Multi-campus

- Delivered Level 1 and Level 2 technical support to more than 2,000 users through on-site and remote assistance, prioritizing work according to service needs.
- Managed approximately 150–200 technical incidents per week (hardware, software, operating systems and connectivity) through a corporate ticketing system.
- Administered Active Directory (user accounts, permissions and Group Policy), Microsoft 365, Windows workstations and network printers.
- Installed, configured and maintained workstations; diagnosed hardware, software and network issues.
- Supported computer laboratories, audiovisual equipment, videoconferencing, streaming and institutional events.

SELECTED ACHIEVEMENTS

- Participated in the implementation and support of a distributed printing solution across 7 university campuses.
- Contributed to internal inventory management tools using Java and PHP.

Customer Service

Dumpling House, Málaga · December 2025 – July 2026

- Worked directly with customers in a fast-paced service environment, strengthening communication, prioritization and customer-focused problem-solving skills.

L1/L2 support · Incident triage · Ticket management · Technical troubleshooting · Remote support · User assistance · Service prioritization · TeamViewer · AnyDesk · Remote Desktop (RDP)

Systems & networks

Windows 10/11 · Windows Server · Microsoft 365 · Active Directory · GPO · TCP/IP · DNS · DHCP · VPN · Linux (basic) · macOS (basic)

Deployment & workplace

Workstation setup · Hardware and peripherals · Network printers · Imaging (Ghost, Clonezilla) · Inventory · Video conferencing and streaming

TECHNICAL SKILLS — CONTINUED

Development & automation

Java | PHP | JavaScript | React | Python | Flask | SQL | REST APIs | Git

SELECTED TECHNOLOGY PROJECTS

Dakinis Systems

INFRASTRUCTURE · EVOLVING MVP · PUBLIC CODE AND SITE

Technical foundation of the Dakinis ecosystem: Docker orchestration, gateway, databases and architecture docs for multiple products.

My role: service architecture, infrastructure, deployment organisation and operational documentation.

Docker, PostgreSQL, Redis, Gateway, Node.js

Dakinis Core

SAAS PRODUCT · PUBLIC DEMO · EVOLVING

Dakinis One product: modular business management app (clients, operations and inventory).

My role: Full Stack development, APIs, business logic and modular application structure.

React, Vite, Node.js, Fastify, PostgreSQL, Redis

AkoeNet

WEB APP · PUBLIC DEMO · EVOLVING

Client for a community platform with real-time chat, desktop (Tauri) and mobile.

My role: React frontend, real-time communication (Socket.IO) and multi-platform packaging.

React, Vite, Socket.IO, Tauri, Capacitor

StreamAutomator

AUTOMATION · PUBLIC DEMO · EVOLVING

Platform to schedule streams, notifications and multi-platform publishing.

My role: scheduling backend, integrations, notifications and persistence with PostgreSQL/Redis.

React, Vite, Node.js, Express, PostgreSQL, Redis, Socket.IO

EDUCATION & CERTIFICATIONS

Full Stack Software Developer

4Geeks Academy, Spain · 2024 · 360 hours

Training included JavaScript, React, Python, Flask, SQL and REST APIs.

Systems Analyst

Instituto Superior Nuestra Señora de las Nieves · 2016

CERTIFICATIONS & TECHNICAL TRAINING

PHP & MySQL | Git Collaborative Development | Laravel MVC | REST API Development | Oracle SQL

Course-based training with mixed formal accreditation (not all with official certificates).

LANGUAGES

Spanish — Native | English — B2 (self-assessed, professional working proficiency)

IMMEDIATE AVAILABILITY · OPEN TO RELOCATION ACROSS EUROPE · HYBRID AND ON-SITE
